Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed December 9, 2003 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

Japanese reference 0492340A2 has not been considered.

Response to Amendment

Claims 1-6 are pending.

The rejection of claims 1-3 has been withdrawn based on applicant's amendment filed on February 6, 2006.

Response to Arguments

Applicant's arguments pertaining to claims 4-6 filed February 6, 2006 have been fully considered but they are not persuasive.

The cited Japanese reference 02-281670 does disclose two discharge sections and does disclose transverse beam modes.

Claim Rejections - 35 USC § 112

Subject to the following paragraph, a claim in dependent form shall contain a reference to a claim previously set forth and then specify a further limitation of the

subject matter claimed. A claim in dependent form shall be construed to incorporate by reference all the limitations of the claim to which it refers.

Claims 2 and 3 is to under 35 USC 112 fourth paragraph, 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

The limitations recited in claims 2 and 3 have added to the parent claim in applicant's amendment filed on February 6, 2006.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hitoshi et al (JP 02-281670).

Regarding claims 4 and 5,

Hitoshi et al illustrates in figure 1 two discharge regions [applicant's two discharge sections] each discharge region including electrodes (2) and (3) [applicant's electrodes]. Figure 1 also illustrates the different modes [applicant's transverse beam modes] generated in each discharge region, as described in the abstract. Figure 1 illustrates two power sources (4). The abstract describes controlling the supply voltage to the electrodes [applicant's adjust distribution amount of discharge power]. Figure 2 describes the transverse modes (TEM).

The method of controlling in claim 5 is anticipated by figure 1.

Regarding claim 6,

Figure 1 illustrates an intermediate mode.

Allowable Subject Matter

Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed based on applicant's amendment and arguments filed on February 6, 2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
